

This month, please especially remember to pray for the following areas.

Asia and the Pacific

When former bus driver Bidhan, who lives in northern Bangladesh, lost both his legs 12 years ago, he struggled to pay rent and support his family of four. Things began to look up when a priest helped him start a small business and several U.S. churches partnered with Habitat for Humanity to help Bidhan build a decent home with a ramp for wheelchair access.

Bidhan and his family and their new Habitat home

May the Lord bless the work of Habitat Bangladesh to enable more families like Bidhan to achieve stability and self-reliance.
