**Registration and fees must be completed in advance** and include all the supplies needed to create your own unique 16"x 20" piece of art!

All proceeds, after cost, support Habitat for Humanity of Sangamon County.

### **What is Paint Pour Art?**

Paint Pouring is a form of abstract painting using acrylic paints. Instead of using paint brushes to create a specific design, paint pouring uses the physics of motion to create visually stunning designs and like snowflakes, no two is exactly alike. This type of art is fun for all ages and all experience levels.

### **When can I take my work home?**

We recommend that you wait at least 48 hours before moving your work to ensure your design is not altered by any additional movement. Because paint pouring uses motion to create a design any additional movement may alter it significantly. By allowing ample drying to take place it ensures your art is ready to hang as soon as you get it home.
